**The Bridesmaid or the Bride:**  
**Illuminating the Impact of Student Support Services**  
**on a Range of Student Outcomes**

**ANGELA NATALI**

LIONBRIDGE

# Why look at the impact of support services on student outcomes ?

- Accountability for student outcomes being sought from :
  - **Government:** relevance of tertiary education, outcomes; funding; societal benefits
  - **Students:** now more student driven
  - **Education institution:** resource allocation
  - **Wider society:** societal benefits

Enrolments in New Zealand tertiary education, 1879–2015

# Why haven't we been good at illuminating impact ?

- We measure what we can see
- It's what happens in the classroom that matters....right ?

*Student engagement theory has established that higher levels of student engagement result in better student outcomes.*

Kuh, Hu, and Vesper, 2000; Pike, Kuh, and Gonyea, 2003; Pascarella and Terenzini, 2005; Astin, 1984

*The provision of support services has been shown to have a positive impact on student engagement.*

McClenny, 2004; Kuh et al, 2005; Pike & Kuh, 2006

# Why haven't we been good at illuminating impact ?

- Didn't have the drivers
- Didn't have the technology
- Siloed data systems
- Large volumes of information about students and the context in which they learn

# Illuminating the impact

## Institution's strategic goals

Support Services  
outcomes aligned to  
institutional strategy

## Support service outcomes

Student skills and  
attributes gained from  
engagement with  
support services

## Institution data

*By understanding more  
about the student's  
holistic engagement  
experience, we can get  
more insight into their  
value-added  
achievement to tell  
what difference tertiary  
education actually  
makes*

NZ Productivity  
Commission 2017

# Information-based Decision Making

Insights about student behavior and outcomes, can inform improvements in student experience, and organisational and cost efficiencies

Interim results  
from my research

# Emerging Themes

Strategic alignment

Pan-organisation collaboration

Data capture

Analytical capability & capacity

Education is more than  
academic achievement

Support service outcomes

# Support Services – Student Outcomes

# Questions and Discussion

# For Discussion

- What information do Student Learning Service providers want to know about students, to help target their programs ?

# For Discussion

- Outcomes for Student Learning Services
- Priority of those outcomes

# For Discussion

- Student Learning Services has been excluded from being funded from the Student Services Levy

Do you think the approaches presented today will be useful to show that SLS should be funded by the SSL ?
