

Transition to Study

Multiple approaches to supporting international students in their first trimester of New Zealand tertiary study

Learn more. Right here

WelTec

Academic support offered

- Individual and group appointments with a Learning Advisor
- Academic workshops in the Learning Commons
- Transition to Study

Transition to Study

- Introduced at international orientation
- Five optional sessions
- Range of academic skills covered e.g. referencing, note-taking
- Lecture-style with small group discussions and activities
- Evenings and lunchtimes

Challenges

- Decontextualized

Learn more. Right here

Realizations

- Students attending additional support classes were often not those who needed the support (Durkin & Main, 2002).
- Early in their courses, students not yet aware of the necessity of the skills being taught (Vygotsky's ZPD).
- To learn effectively students need to experience a problem, take action, get feedback and reflect (Kolb & Fry, as cited in Wingate, 2006).
- No one size fits all – international students arrive with a variety of expectations and needs (Butcher & McGrath, 2004).
- Proactive approach better than reactive (Li, Baker, & Marshall, 2001).

(Bennett et al, as cited in Wingate, 2006)

Process

Five schools involved – Business, IT, Creative, Health and Social Sciences, Engineering

1. Set up discussion groups
2. Sought out interested tutors (*champions*)
3. Offered different collaboration options
4. Allowed time for tutors to reflect

Learn more. Right here

Five different results

- **Business** – Camp
- **IT** – Workshops in a compulsory course and study circles
- **Creative** – one-to-one support in-class
- **Engineering** – contextualised compulsory program
- **Health and Social Sciences** – contextualised compulsory program

Example Activities

Graduate Diploma in IT

(School of Business and IT)

In-class collaboration with tutor

- Delivering workshops matched to assignment due dates
- Available after-class for individual questions
- Involved in moderation

Learn more. Right here

Bachelor of Creative Technologies

(School of Creative Technologies)

In-class collaboration with tutor

- In-class workshops on request
- Present during assignment writing sessions in-class to offer support in collaboration with tutors
- 1-to-1 support as required

Learn more. Right here

Bachelor of Engineering

(School of Engineering)

Out-of-class endorsed support

- Three sessions
- Compulsory attendance
- APA referencing and academic honesty
- Experiential tasks
 - Analysis of exemplar reports
 - Oral presentation of a bridge design and model
 - Research-based paragraph on an engineering topic

Learn more. Right here

Graduate Diploma in Addictions

(Health and Social Sciences)

Out-of-class endorsed support

- Three sessions
- Focus on finding information, referencing and reflective writing
- Discussion groups with former/current students
- Experiential tasks
 - finding sources for a case study
 - Writing reflective paragraph about research topic

Learn more. Right here

Reflection

‘Bolt-on’
Approach

‘Built-in’
Approach

Reflection

Successes

Areas for improvement

- More connections between Learning Advisors and Staff
- Learning Advisors seen as more approachable
- Improvements in assignment quality (anecdotal)

- More buy-in
- Research-backed
- Long-term vision

Learn more. Right here

Ongoing challenges

- Time...
- Tutor and student attitudes to 'Learning *Support*'
- Knowing content and knowing tutor expectations

Diversity in the Workplace: Benefits, Challenges, and the Required Managerial Tools¹

Kelli Green, Mayra López, Allen Wycski, Karl Kepner, Derek Farnsworth, and Jennifer L. Clark²

Introduction

The world's increasing globalization requires more interaction among people from diverse backgrounds. People no longer live and work in as insular environments. They are now part of a worldwide economy competing within a global framework. For this reason, profit and non-profit organizations need to become more diversified to remain competitive. Maintaining and capitalizing on workplace diversity is an important issue for management.

Supervisors and managers need to recognize the ways in which the workplace is changing and evolving. Managing diversity is a significant organizational challenge, so managerial skills must adapt to accommodate a multicultural work environment.

This document is designed to help management effectively manage diverse workforces. It provides a general definition of workplace diversity, discusses the benefits and challenges of managing diverse workplaces, and presents effective strategies for managing diverse workforces.

Diversity Defined

Diversity can be defined as acknowledging, understanding, accepting, and valuing differences among people in all respects to age, class, race, ethnicity, gender, disabilities, etc. (Ryte et al. 1995).

Source: <http://www.7times.com>

Companies need to embrace diversity and look for ways to become inclusive organizations because diversity has the potential to yield greater work productivity and competitive advantages (Gibson 1990). Stephen Badin, co-chair of Business, Higher Education Forum, believes diversity is an invaluable corporate asset (Robbins 2002). Managing diversity is a key component of effective people management in the workplace (Clark-Enterprise 2001).

Demographic changes (women in the workplace, organizational restructuring, and equal opportunity legislation) will

Academic honesty discussion

Are the following acceptable?

1. Student A finds a good source of information and tells student B about the source. They talk about it. They write the assignment independently using this information and identify the source in their text.

Yes / No

2. Student A and Student B find the same source independently. They write the assignment independently and both use exact words from the source without identifying the source in their text.

Yes / No

3. Student A doesn't know how to start the assignment and so he asks student B who helps him by showing him his own work. Student A writes up the assignment in his own words but there are similarities with student B's work.

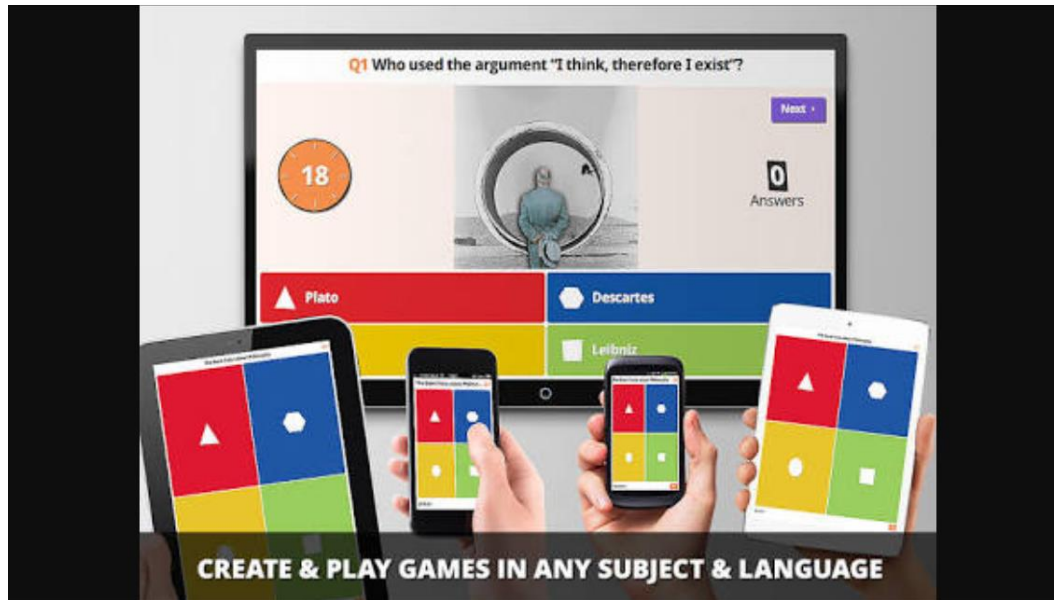

Yes / No

(Barrett, & Cox, 2005)
